

## HELLO EAGLE FRIENDS!

### GAMECHANGERS!

The EAGLE team kickstarted the Youth Clubs in Cowdray Park and Rangemore. It was amazing meeting with very engaging young people who promised to continue coming to the clubs henceforth. We look forward to having more and more youths joining us soon. The young people that came for the first youth club meeting were ranging from seventeen to twenty two years of age. Most of them are students in High schools, colleges and universities in and out of the country.

We did several team building activities, this was meant to create a strong team spirit within and amongst the youths. The team were divided and they had multiple mind blowing challenges which they took up very well. We later discovered that they are very talented young people with many skills that could be groomed. One is passionate about mechanics, the other is a very good pianist and others mentioned that they can sing and sew. As we proceed with this initiative we hope that we can help groom these passions.

Together we had a discussion asking if we know who we are and what our purpose on earth is. We heard multiple responses such as that our purpose is to serve others, which is why God put us on earth. We noticed that some of the youths were open to sharing their answers while some were not and so that was a point we took into consideration and with time we hope to be able to reach out to all of them equally and meet them at their points of need.

Lastly we had a moment of prayer and dedicated them to the Lord. We prayed for blessings upon them and that the Lord blesses them in all their endeavors. They seemed to have absolutely enjoyed the session and we hope to keep receiving the same enthusiasm as we go on with this group.

# CONTENT

## EAGLE ON SCREEN !

We have been participating in Keller education program and we learnt a lot about emotional intelligence. Upon registering that this information relevant, the team then saw it fit that we share it with our facilitators as they are the ones who work closely with the learners. The team will work to make the content more relatable to facilitators.

## CONTENT PROGRESS

Content creation is still ongoing. The lessons are interactive so the learner gets immediate feedback on performance. We prepared holiday lessons for them and also conducted tests for them so that we are able to check their progress in regard to the content we have. We want to be able to assist them in the topics they are struggling with and wherever they get low marks. Some highlighted that there are no teachers for some of the subjects at their schools and some of the subjects are not even there hence the low marks.

## We Link ,We Learn!

EAGLE team attended ICEBO branding expo where much was shared about how one can grow their business, brand it and sell it. We learnt ways through which we can bring out EAGLE and its vision as a fine brand. After all presentations we managed to meet people from different organizations and shared a few ideas which will come in handy to our organization specifically. We hope our IT team will know how best to improve the user interface of our upcoming application.

# OUTREACH

## LET'S EDUCATE !

In collaboration with Mustard seed we have started another learning group. The organization has been very welcoming as well and they are keen to make the learning group a success. We do not have enough hardware at the moment to ensure that the learning is made very comfortable for them. The learners at the Mustard seed orphanage do not own gadgets hence the challenge in terms of devices, however

we strongly trust that the Lord will intervene and this initiative will be a success

## WE CONNECT!

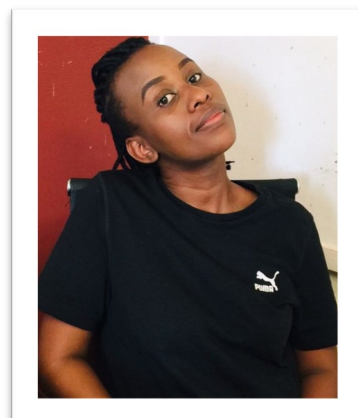

Again we managed to connect with people from within and outside our country. We took part in the ABR meeting. We were focused on how to engage the youth through media and other activities, involve them in programming and sound .

This meeting was very essential to us as EAGLE as we closely work with young people in both learning groups and Youth clubs as well. We really need to be better equipped in terms of knowing how to befriend them and be able to meet them at their points of need. We hope to continue getting more opportunities to engage with more people and continue learning more.

## BON VOYAGE ! GOODBYE.

Sibukele Maphosa has been a very vibrant member in the team, working with her has been a bliss. She was our Radio producer, working on creating radio lessons hence a very vital member of the EAGLE team. Sibukele is very fervent about seeing growth in other people . Sadly, we are parting ways in this month however we forever cherish the time we got to work with her and we hope she continues to shine bright wherever she goes.

### **NOTE FROM THE TEAM.**

It is the end of yet another exciting month. The Lord has again been good and faithful to us. We have made new friends, met new people and we continue to grow and fly high as the EAGLE that we are. We have had good and not so good moments yet we continue to soldier on in prayer . The bible states that if the Lord builds a house those that labor, labor in vain. Thus we also ask that you join us in prayer as we pray for EAGLE to have a positive impact on every young person in Zimbabwe and beyond.
