

# EAGLE LEARNING

June Newsletter

## WE LINK!

We also had a meeting with pastors at TMG. It was one of our biggest meeting and we also had more pastors coming forth, offering their help and promising that they will bring more learners. Every question from the audience was properly answered and after the meeting, the pastors went outside to have a look at the kits that are used when teaching the learners in our learning groups. Some of the pastors even committed to giving us their trusted members to serve as facilitators in the learning groups. They asked for our brochures so they can get in touch with the team. This saw us partnering up with TMG in the sense that some of the pastors will register their learning groups directly from the TMG offices and thus we have a strong work relationship with TMG as well.

“

EAGLE learning in conjunction with Forgotten voices had a meeting with church leaders to share the vision. The participants and members present were keen to participate in the learning program. They made inquires on how best they can access the kits and have learning groups in their respective neighborhoods. Most of them did get into contact with members of the team after the meeting thus showing their dedication the work.

## FACILITATORS

We have held several facilitator trainings during the month of June. One was held at Hopedale, in EAGLE learning offices. We have reached out to six congregations which has seen us having training every week.

Meetings have been held in Mabhulawuni, Rangemore and Cowdray Park with facilitators that are going to be facilitating our learning groups. We have worked towards rectifying the problems and issues that we faced during our Project 300 campaign.

# EAGLE LEARNING

## WE CONNECT!

Learning groups have been running and content continues to be made for the. The Mabhulawuni learning group is one of our fast growing learning groups and has also gotten a very vibrant facilitator who is dedicated to making the learning site a great one for the learners. The learners have also shown great interest through

their attendance and they greatly appreciate the content as they testify how helpful it is to them

## WEBSITE UPDATE

Watch out for our new updated website. We would love to relate with our audience through the new site!

## MEET A MEMBER

*Meet Thamsanqa!*

Thamsanqa is our IT specialist. We also call him Thamue. He is our graphic designer and he edits our video lessons making sure they have good graphics that make the learner understand the lesson more. He takes care of the hardware and manages the software as well. Thamue is able to code, he is currently working on our website and we are all excited about it. We greatly appreciate the massive work that he does for EAGLE.
